Our Core Values:

- We demonstrate respect, care and passion for the earth, all people and all living things
- We strive for excellence in everything we do through integrity, open communication and teamwork
- Individuals are valued, engaged and appreciated for their unique contributions
- We believe in life-long learning through positive shared experiences with the natural world
- Our efforts encourage others to recognize their interconnectedness with the earth through their actions

Our Vision:

A healthy planet where all people live in balance with the Earth.

Birding Opportunities at the Audubon Center of the North Woods

The Audubon Center of the North Woods (ACNW) is located on Grindstone Lake in east-central Minnesota. Our unique location puts us in a transition zone where several habitats are present, creating outstanding birding opportunities.

Through preservation and dedicated, responsible land management efforts over the last 45 years, our property contains old growth white and red pine groves, old growth northern hardwood forests, multi-aged conifer stands, birch and aspen stands, tall-grass prairie, oak savanna, shrub carr, wetlands and lake and stream habitats.

Our 535-acre nature sanctuary lies on the east shoreline of Grindstone Lake, a 154 ft. deep, 528-acre oligotrophic lake. We also own an 80-acre parcel near Finlayson, MN that represents one of the best wetlands in the area. The avian results are that these habitats create the conditions where over 200 bird species have been recorded!

Happy birding to you!

About the Audubon Center of the North Woods:

The Audubon Center of the North Woods is a private, non-profit 501(c)3 residential environmental learning center for people of all ages. As an accredited, school, we offer programs for K-12 and college students, as well as family, adult, senior and community members. Our programs focus on environmental sciences, outdoor recreation, team-building, energy, wildlife and local culture/history.

Season and Abundance Key:

The *seasons* in the checklist are defined as follows:

Sp (Spring) = March, April, May

Su (Summer) = June, July, August

Fa (Fall) = September, October, November

Wi (Winter) = December, January, February

Abundance codes are defined as follows:

C = Common -- present, relatively easy to find

U = Uncommon -- observed, may be difficult to find

O = Occasional -- may or may not be present in any year

R = Rare -- has occurred at least once, may or may not be expected to recur
